

Two snippets from the middle of the files:

Old, correct backup:

```
INSERT INTO data_template_data VALUES (1133,287,1039,56,2,NULL,'Ihost_descriptionI - NS Traffic - I
query_nslfNameI','devicename NS - NS Traffic - ethernet1','<path_rra>/
devicename_netscreen_ns_int_traffic_in_1039.rrd',NULL,'on',NULL,60,NULL);
INSERT INTO data_template_data VALUES (1134,287,1040,56,2,NULL,'Ihost_descriptionI - NS Traffic - I
query_nslfNameI','devicename NS - NS Traffic - ethernet2','<path_rra>/
devicename_netscreen_ns_int_traffic_in_1040.rrd',NULL,'on',NULL,60,NULL);
INSERT INTO data_template_data VALUES (1135,287,1041,56,2,NULL,'Ihost_descriptionI - NS Traffic - I
query_nslfNameI','devicename NS - NS Traffic - ethernet3','<path_rra>/
devicename_netscreen_ns_int_traffic_in_1041.rrd',NULL,'on',NULL,60,NULL);
INSERT INTO data_template_data VALUES (1136,287,1042,56,2,NULL,'Ihost_descriptionI - NS Traffic - I
query_nslfNameI','devicename NS - NS Traffic - ethernet4','<path_rra>/

```
